LUKOIL JOINS LUBRICATS LIST OF DANIELI ENGINEERING GIANT

Italy-based Danieli, one of the global leaders in machinery construction for steel and metalworking industry, has included LUKOIL in its list of preferred lubricants suppliers.

Over 40 LUKOIL products are recommended for servicing Danieli industrial equipment, including LUKOIL STEELO gearbox oils, LUKOIL GEYSER hydraulic oils, with HFC and HFDU fireproof products among them, as well as INTEGO PREMIUM circulation lubricants for rolling mills, and FLEX greases.

As of today, LUKOIL has over 1,200 approvals from international original equipment manufacturers (OEMs). The company's products are included in the lubricants lists of leading industrial OEMs such as Danieli, SMS Group, ThyssenKrupp, Siemens Flender, Siemens, Eickhoff, Santasalo, FLSmidth MAAG Gear and Ansaldo Energia.

For reference:

Danieli is among the top-three global equipment suppliers for metal industry. The concern's product range includes rolling mills, continuous casting machines, electric furnaces, metal scrap recycling equipment, automation systems and etc. The company has eight machinery plants in Italy, Germany, Austria, Sweden, Thailand, China, India and Russia (Danieli Volga).
